

The following is important information regarding our Acorn fundraising program

Dear Families,

Please be advised that we have partnered with Acorn School Fundraising to assist us in reaching this year's fundraising goals. The Acorn program was chosen because it not only provides a fun and fulfilling experience for our students, but it works in unison with our curriculum, better representing the goals and values of our school than most conventional fundraisers.

Acorn makes a professional reproduction of YOUR child's artwork, created in the classroom. The art is printed on items such as folding cards, calendars, placemats, and more. All products are customized with the artist's name, age, the school name, and more, making each item one-of-a-kind. All of our products are of the highest quality and affordably priced.

In the next few weeks, be on the lookout for your child's artwork completed on an Acorn sheet. Here you will find product descriptions, pricing, and online ordering instructions. Details are available on the Acorn website and the Acorn app. We encourage you, as part of the school community, to support this endeavour. Remember, all the money raised goes directly to our school. In return, you will receive something of value, something that is as useful as it is unique and can be kept as a memento for years to come.
